1.0 Executive Summary

Bharat Electronics Limited is a Government of India enterprise under Ministry of Defence, set up in Bengaluru in the year 1954. It is the premier electronics company for the development and manufacture of professional-grade electronic equipment, systems and components. The company has achieved progressive self-reliance in the areas of design and manufacture of equipment for Defence Communications, Electronic Warfare Systems, Radars & Sonars, Opto-Electronics, C4I Systems, Turnkey Solutions, Tank Electronics, Meteorology, Space Electronics, Civil Aviation, Medicare, Solar Photovoltaic based Systems and the Electronic Components. The company has pioneered India's first Electronic Voting Machine manufactured through automatic assembly facility.

BEL Software Technology Centre (BSTC) currently being called as Software-SBU was established to address the common software development requirements for large size projects. The software process model complies to CMMI-DEV ver 2.0 Maturity Level 5 (since 2009). The strength of the centre is around 300+ engineers. Large software projects developed and supported include OOAD based systems and RTOS based systems. BEL is also considered as one of the agency for IV&V on Software modules generated by DRDO. The Software Assurance team of BEL Software SBU, BEL Bangalore offers Software Quality services, IV&V (Independent Verification & Validation) VAPT (Vulnerability Assessment & Penetration Testing), IT Security auditing services and Usability testing to software projects developed by BEL and DRDO labs.

BEL invites responses against Expression of Interest (EOI) from established, reputed, reliable Software Development agency for vendor empanelment in BEL for Design, Development, Implementation and Maintenance of softwares/ Apps for Law Enforcing Departments.
